NETFON SERVICES LTD

Netfon is a leader in consulting and supporting services in telecommunications in Cyprus. Focusing on operators and large organizations, Netfon is the most experienced company in Cyprus in the fields of Electromagnetic Field Measurements as well as Site Acquisition and Licensing services. Netfon's prime achievement has been the consulting services provided to Areeba (nowadays epic), preparing business plans and assisting it to win the license and to enter and establish itself in Cyprus.

Netfon is the first company in Cyprus to be certified as an Accredited Laboratory for Electromagnetic Field Measurements according to the EN ISO/IEC 17025 standard (9kHz – 6GHz). In 2013 Netfon supplied, installed and is since then maintaining the "Ground-to-Air" system for the Department of Civil aviation of Cyprus, a project work more than 1.2 million euro. In 2018 Netfon was awarded contract CON/CY/18-043 for the Supply, installation, repair and maintenance of UNFICYP's fibre optic, Structure cabling and telephony network. In 2021 Netfon was awarded Project Manager for the "Systems" upgrade of the Department of Civil Aviation of Cyprus building at Kokkinotrimithia, in charge of the supply and installation of more than 11km optical fibre, 70km of

CAT6 and CAT6A Ethernet cabling, cabinet installation in two datacentres, fire-prevention and suppression systems, Wi-Fi, Access control and CCTV systems.

Through its vast experience with projects and tenders and its cooperation with top-class organizations, Netfon continues to serve its customers to their full satisfaction.
